Bonjela Cool Mint Gel

Uses

For relief of pain, discomfort and inflammation caused by common mouth ulcers, cold sores, denture and sore spots, as well as mouth ulcers, and sore spots due to orthodontic devices. Helps to fight minor mouth infection and aid healing of sore spots and ulcers due to dentures and orthodontic devices.

Dosage

Over 16 years: massage approximately half an inch of gel onto the sore area not more than once every 3 hours. For denture irritation: use 30 minutes before re-insertion of the dentures. Do not apply directly to the dentures. Under 16 years: not to be used.
