Canesten Thrush Combi Soft Gel Pessary & External Cream

Uses

For the treatment of candidal vaginitis (soft gel pessary) and candidal vulvitis (external cream). The external cream should be used as an adjunct to treatment of candidal vaginitis.

Dosage

16-60 years: insert the pessary into the vagina at night. Apply the external cream thinly to the vulva and surrounding area 2 or 3 times daily and rub in gently. If symptoms worsen or do not improve within 7 days, a doctor should be consulted.
Under 16 or over 60: a doctor should be consulted before use.
