Nicotinell Rapid Relief Oromucosal Spray

Uses

For the treatment of tobacco or e-cigarette dependence in adults by relieving nicotine withdrawal symptoms, including cravings, during a quit attempt or to cut down smoking or vaping before stopping completely.

Dosage

Adults and elderly: up to 4 sprays per hour, but no more than 2 sprays per dosing episode or 64 sprays in 24 hours. For best results, do not swallow for a few seconds after spraying. When users have reduced to 2-4 sprays a day, use should be discontinued. For full dosage instructions, see pack. Regular use beyond 6 months is not recommended. Under 18 years: not suitable.
