

Drapolene Cream

Uses

Prevention and treatment of adult urinary dermatitis (skin that is sore or likely to become sore because of urine on the skin) and also nappy rash. Relief of minor burns, limited sunburn and the effects of weather.

Dosage

Adults: Urinary dermatitis: Regular routine application is advised. Children: Nappy rash: Apply evenly at each nappy change, paying particular attention to folds in the skin. Relief of minor burns, limited sunburn and the effects of weather: Apply as required.
