

Sudafed Sinus Pressure & Pain 200mg/30mg Film-Coated Tablets

Uses

Symptomatic treatment of nasal congestion associated with acute rhinosinusitis suspected to be of viral origin with headache and/or fever.

Dosage

15 years and over: 1 tablet every 6 hours if necessary or 2 tablets every 6 hours for more intense symptoms if necessary. Maximum 6 tablets in 24 hours. Under 15 years: not to be given. The lowest effective dose should be used for the shortest duration necessary to relieve symptoms. The maximum duration of treatment is 4 days for adults and 3 days for adolescents aged 15 years and older.
