Uses

Treats the external symptoms of thrush, such as itching, burning, redness and soreness. Should be used as an adjunct to internal treatment. Can also be used to treat a sexual partner's penis to prevent re-infection.

Format and Ingredients

Cream containing:

Clotrimazole 2% w/w,

Dosage

16-60 years: apply thinly 2 or 3 times daily. Treatment should be continued for up to 1 week after treating the internal infection in women and for up to 2 weeks in men. If symptoms worsen or do not improve within 7 days, a doctor should be consulted. Under 16 or over 60 years: a doctor should be consulted.
