

## ColdZyme Mouth Spray

### Uses

Protects against upper respiratory tract viruses that cause common cold and flu-like symptoms. Forms a protective moisturising barrier that disables viruses and inhibits their ability to spread and multiply.

### Dosage

Adults and children 4 years and over: spray twice (1 dose) at the back of the throat every 2 hours, up to 6 doses daily while exposed to viruses or until symptoms are relieved.

### Format and Ingredients

Spray containing:  
Glycerol, Trypsin,
