

Benacort 64 Micrograms Nasal Spray

Uses

For the prevention and treatment of seasonal allergic rhinitis (hayfever).

Dosage

18 years and over: 2 sprays into each nostril each morning. Once symptoms are under control, a maintenance dose of 1 spray into each nostril each morning may be used. If symptoms recur patients should revert to the starting dose. Treatment of seasonal rhinitis should start, if possible, before exposure to the allergens. Under 18 years: not to be used.
