

KELO-COTE Spray

Uses

For the treatment and prevention of old (up to 4 years) and new hypertrophic and keloid scars resulting from burns, general surgical procedures and trauma wounds. Helps to soften and flatten raised scars and reduce redness or discolouration associated with them.

Dosage

Adults, people with sensitive skin and children aged 3 months and over: shake well before use. Ensure affected area is clean and dry. Hold can 15-20cm from surface to be treated and spray along the length of the scar in a light, sweeping motion. The spray should be applied in a very thin, even coating, with no gaps or holes.

Format and Ingredients

Gel containing:
Polysiloxanes, Silicon Dioxide,
