

# Scholl Fungal Nail 2-in-1 Treat & Prevent

## Uses

For the treatment and prevention of mild fungal nail infection.

## Dosage

Week 1: File the surface of the nail once a week, disposing of the file after use. Apply the nail liquid to the infected nail daily. Repeat for weeks 2, 3 and 4. Week 5 onwards apply the nail liquid to the infected nail once a week for 9-12 months until the discolouration has grown out.
