

# Daktarin 2% Cream

## Uses

For the treatment of mycotic infections of the skin and nails and superinfections due to Gram-positive bacteria.

## Dosage

Adults and children: Skin infections: Apply to infected skin twice a day. Nail infections: apply to infected area once or twice daily. The duration of treatment varies from 2 to 6 weeks depending on the localisation and the severity of the lesion. Continue treatment for 7 days (skin infections) or 10 days (nail infections) after all symptoms have cleared to prevent relapse.
