

Gaviscon Double Action Aniseed Liquid

Uses

For the treatment of symptoms resulting from the reflux of acid, bile and pepsin into the oesophagus such as acid regurgitation, heartburn and indigestion – for example, following meals or during pregnancy – and for symptoms of excess stomach acid (hyperacidity). Can also be used to treat the symptoms of gastro-oesophageal reflux during concomitant treatment with or following withdrawal of acid suppressing therapy.

Dosage

Adults: 10-20ml after meals and at bedtime, up to 4 times a day. Children: should only be given on medical advice.
