

Rohto Dry Aid Intensive Dry Eye Relief

Uses

Restores the tear film and dry spots, and relieves symptoms of discomfort and low quality of vision caused by dry eye for a long period. Discomfort due to dry eye may include irritation, sore eyes, grittiness, dryness, itchiness, burning eyes, stinging and sensitivity to light, wind, low humidity, air conditioned areas or other unpleasant environments. Low quality of vision due to dry eye may include tired eye and vision problems which may limit reading, watching of electronic displays, driving or other activities.

Dosage

Adults and children over 6 years: 1-2 drops in the affected eye(s) as needed. Contact lens wearers: remove contact lenses first, apply the drops and wait 15-20 minutes before putting contact lenses back in. 6 years and under: not recommended.
