

Nicorette QuickMist Mouthspray

Uses

Relieves and/or prevents cravings and nicotine withdrawal symptoms for those wishing to stop smoking or vaping or cut down prior to quitting. Can be used in pregnancy and lactation when making a quit attempt. Also available as Nicorette QuickMist SmartTrack Mouthspray, which works in conjunction with the Nicorette Stop Smoke & Vape app.

Dosage

Over 12 years: 1 or 2 sprays into the mouth when cravings emerge. Maximum 2 sprays per dosing episode, 4 sprays per hour or 64 sprays in any 24-hour period. Smoking/vaping cessation: replace all cigarettes/e-cigarettes with Nicorette QuickMist, reducing the number of sprays until stopped completely. Cutting down prior to quitting: use Nicorette QuickMist between smoking/vaping episodes as needed to prolong smoke/vape-free intervals and reduce use as much as possible before quitting completely.
