

Dentinox Cradle Cap Treatment Shampoo

Uses

For the treatment of infant cradle cap and general care of infant scalp and hair.

Dosage

Wet baby's head with warm water, put about 2-3ml of shampoo in palm of hand and massage gently but firmly over entire scalp. Do not be afraid of touching the fontanelle. Rinse off and repeat application. Rinse well and gently dry. Repeat each bath time until the scalp is clear. Suitable from birth but avoid contact with the eyes.

Format and Ingredients
