Uses

Athlete's foot and candidal intertrigo where there are co-existing symptoms of inflammation.

Format and Ingredients

White cream containing:

Miconazole Nitrate 2% w/w, Hydrocortisone Acetate, equivalent to Hydrocortisone 1% w/w,

Dosage

Apply the cream twice a day to the affected area, rubbing in gently until absorbed by the skin. The maximum period of treatment is 7 days. Should be used sparingly and for short periods of time in the elderly due to natural thinning of the skin.
