

Tepe Interdental Brush Angle

Uses

To remove plaque and food debris from between the teeth which can lead to gum disease, bad breath and tooth decay. Angled interdental brushes are easy to use from either cheek side or tongue side surfaces. Interdental cleaning helps remove up to 40 per cent more plaque than toothbrushing alone. Available in 6 colour coded sizes.

Dosage

Use daily. Do not force into a space. Insert between teeth, move back and forth. More than one brush size may be needed.
