

## Dr Wolff's V-San Moisturising Cream (with applicator)

### Uses

For symptoms caused by dryness in the vagina and external genital area, including dryness, burning sensation, itching, minor lesions and pain during intercourse.

### Dosage

Apply daily, preferably in the evening before bedtime. If using applicator, fill half way (about 2.5g cream). Once symptoms have improved, frequency of use can be reduced, depending on individual needs.

### Format and Ingredients

Cream containing:  
Aqua, Bensusyl Alcohol, Cetearyl Alcohol, Cetyl Palmitate, Lactic Acid, Octyldodecanol, Polysorbate 60, Sodium Lactate, Sorbitan Stearate,
