Category

Female Health and
Genitourinary

Manufacturer

DR WOLFF UK LTD

Pack size

50g

RRP

£14.99

Legal Status

MD

Uses

For symptoms caused by dryness in the vagina and external genital area, including dryness, burning sensation, itching, minor lesions and pain during intercourse.

Format and Ingredients

Cream containing:

Aqua, Bensusyl Alcohol, Cetearyl Alcohol, Cetyl Palmitate, Lactic Acid, Octyldodecanol, Polysorbate 60, Sodium Lactate, Sorbitan Stearate,

Dosage

Apply daily, preferably in the evening before bedtime. If using applicator, fill half way (about 2.5g cream). Once symptoms have improved, frequency of use can be reduced, depending on individual needs.
