4, 20, 36

RRP

£10.08, £35.48, £55.89

Legal Status

(GSL), (GSL), (GSL)

Uses

Relieves and/or prevents cravings and nicotine withdrawal symptoms. Helps smokers ready to stop smoking immediately and those cutting down their cigarette usage before stopping. Suitable for use during pregnancy and breastfeeding.

Format and Ingredients

Inhalation cartridge containing:

Nicotine 15mg,

Dosage

12 years and over: Use whenever the urge to smoke is felt or to prevent cravings. Maximum dose: 6 cartridges per day. Smoking cessation: Replace all cigarettes with the inhalator, then reduce the number of inhalators used until stopped completely. Cutting down prior to quitting: Use the inhalator as needed between smoking episodes to prolong smoke-free intervals as much as possible before stopping smoking completely. Those who have quit smoking but are having difficulty discontinuing the inhalator should speak to a pharmacist or doctor for advice.
