

## Regaine for Men Extra Strength Scalp Solution

### Uses

Treatment for alopecia androgenetica (hereditary hair loss) in men.

### Dosage

Men aged 18-65: hair and scalp should be thoroughly dry before use. Apply 1ml to the scalp twice daily, with a 12-hour interval in between. Do not exceed recommended dose. Wash hands after use. Continuous use is necessary to improve and maintain hair regrowth. Hair re-growth may become noticeable after 2 months.

### Format and Ingredients

Scalp solution containing:  
Minoxidil 5% w/v,
