

Canesten Thrush Internal Cream

Uses

For the treatment of candidal vaginitis.

Dosage

16-60 years: the contents of the filled applicator (5g) should be inserted as deeply as possible into the vagina, preferably at night. A second treatment may be carried out if necessary. If symptoms worsen or do not improve within 7 days, a doctor should be consulted. Under 16 or over 60: a doctor should be consulted.
