

Thealoz Duo Gel

Uses

For the treatment of moderate to severe dry eye disease, providing osmoprotection and bioprotection for cells on the corneal surface. Particularly suitable for night time use. Preservative-free.

Dosage

Remove contact lenses before use and reinsert 30 minutes after instilling the gel. If more than one eye product is being used, 15 minutes should be allowed between instillation of 2 different products, with Thealoz Duo Gel used last. Can be used with Thealoz Duo eye drops for maximum comfort.
