

Dioralyte Sachets

Uses

For the treatment of fluid and electrolyte loss associated with acute diarrhoea. Available in Blackcurrant, Citrus and Natural flavours.

Dosage

Adults: contents of 1 or 2 sachets dissolved in 200ml water after every loose motion. Children: 1 sachet after every loose motion. Infants up to the age of 2: one to one and a half times the usual 24 hour feed volume of Dioralyte Solution. If the loss of fluid in the diarrhoea is excessive, medical advice should be sought.
